ENGAGE STUDENT HANDOUT

Acting Out Motions of the Sun, Moon, and Earth

1. In the box below, draw a diagram of the position of the Sun, Moon, and Earth from the play. Include arrows to show the movement of the celestial objects.

2. What did the rope between the Sun and Earth represent?

3. What is the difference between revolution and rotation in terms of Earth's movement?

4. Describe the movement of the Moon.
